**Riddle**

Two babies were born to the same parents, on the same day, at the same time, in the same month and year and yet they're not twins. How can this be?

**Answers**

- Spot the Difference**
- The driver of the car has no moustache.
  - One of the buildings is missing.
  - A line is missing from the zebra crossing.
  - The car's number plate is bigger.
  - The boy's shoes are a different colour.
- Riddle** They are 2 from a set of triplets.
